PROFESSIONAL SUMMARY

Experienced Software Developer with 3+ years in both mobile and web application development, specializing in React Native and modern web technologies. Adept at designing, developing, and deploying cross-platform mobile applications and dynamic web applications with a focus on performance, scalability, and user experience.

EXPERTISE

- Experience working with front-end and backend frameworks and libraries such as React, Next, Nest, express and the ability to write clean, efficient code using these tools.
- Understanding of responsive web design principles and the ability to create mobile-friendly layouts and interfaces.
- Familiarity with browser compatibility issues and the ability to write code that works across multiple browsers and devices.
- Strong problem-solving and troubleshooting skills, including the ability to identify and resolve bugs and performance issues
- Excellent communication and collaboration skills, including the ability to work closely with designers, back-end developers, and other stakeholders to deliver highquality projects on time and on budget.

WORK EXPERIENCE

Frontend Developer (Contract)

- Hostgada December, 2024 - till date
- Spearheaded the development of the entire frontend of an e-commerce platform for event booking, ensuring high performance and scalability.
 - Built the application using Next.js and modern technologies, adhering to industry standards for code quality and maintainability.
 - Developed and maintained separate dashboards for hosts and guests, enabling tailored experiences for different user roles.
 - Implemented features to support real-time data updates and dynamic content rendering, enhancing the interactivity of the platform.
 - Integrated secure payment solutions for seamless and reliable transactions, ensuring compliance with industry security standards.
 - Conducted thorough testing and debugging, ensuring cross-browser compatibility and smooth deployment of the application.

React Native Developer

- Try Darsh LTD June 2024 - December 2024
- Collaborated with UI/UX designers to create a visually appealing and user-friendly interface.
 - Designed and implemented a robust state management system using Redux and Redux-toolkit.
 - Integrated various APIs and third-party libraries to enhance app functionality and performance.
 - Participated in code reviews and provided constructive feedback to improve code quality.
 - Worked with Expo for rapid prototyping and deployment of applications.
 - Developed custom components and modules to enhance application functionality.
 - Implemented navigation solutions using React Navigation and React Native Navigation.

SKILLS

- Javascript
 - Typescript
 - React
 - Next
 - React-Native
 - Tailwindcss
 - CSS-in-JS
 - Nodejs
 - Express
 - Mongo
 - Postgress
 - Git
 - Github
-

EDUCATION

Yaba College of Technology

2016-2023

Electrical/Electronics Engineering

Frontend Developer

LumiiNG

February 2023- June 2024

- Collaborate with senior developers and designers to build and maintain responsive and user-friendly web applications using Nextjs.
- Integrate third-party APIs and libraries into the frontend code, and ensure proper error handling and data validation.
- Build reusable and modular UI components using Nextjs and Tailwindcss, and ensure that the UI meets the design specifications and accessibility standards.
- Optimize web applications for performance, accessibility, and SEO.
- Write clean, well-structured, and maintainable code, and participate in code reviews to improve coding skills and ensure compliance with industry best practices and standards.
- Seek guidance and mentorship from senior developers, and contribute to the improvement of the development process and tools.

Junior Frontend Developer

Oneflare Tech Solutions

May 2022- September 2023

- Involved and participated in the overall application lifecycle.
- Maintained code quality by testing software to ensure responsiveness and efficiency.
- Worked closely with designers to ensure accurate implementation of UI/UX designs.
- Contribute to the improvement of the development process and tools, and stay up-to-date with the latest web development technologies and trends

CERTIFICATION

- Freecodecamp Javascript algorithm and data structure certification.
-
