SUMMARY

Frontend Engineer with 5+ years of experience architecting enterprise-grade web and mobile applications across African and international markets. Built a white-label distribution platform serving Guinness, Lush, MCPL, and PureFlour including a 80+ feature-flag configuration system and a shared component library of 40+ reusable UI components. Specialises in React Native, PWA offline-first architecture, TypeScript, and CI/CD pipelines.

EXPERIENCE

OMNIRETAIL AFRICA - NIGERIA

(June 2025 - present)

PWA Frontend Engineer

- Collaborated on a 6-engineer team to build and maintain a multi-tenant B2B distribution web platform serving clients including Guinness, Lush, MCPL, IPS, and PureFlour across multiple African markets.
- Architected and owned a shared component library in an Nx monorepo, delivering 40+ reusable UI components consumed across all client brands.
- Engineered a white-label configuration system with 80+ feature flags that enabled brand-specific customization of UI, routing, and business logic without maintaining separate codebases.
- Built inventory management modules covering stock counts, price updates, stock transfers (inbound/outbound), returns, activity logs, and stock activation workflows.

CHANGE PROMOTIONS INC. - CANADA

(May 2024 - June 2025)

React Native Developer

- Integrated payment and wallet features including Paypal SDK, PDF receipt generation/sharing, and ledger/pay-later transaction flows.
- Configured CI/CD pipelines (Azure Pipelines), enforced code quality with ESLint + Prettier + lint-staged + Husky, and maintained test coverage.
- Set up Insider Analytics event tracking with custom page and interaction events across the platform.
- Facilitated agile sprint planning, improving team delivery cadence and code quality standards.

LUMIING - NIGERIA

(February 2024 - December 2024)

Frontend Engineer

- Built modular, reusable React and TypeScript components for hybrid mobile and web applications, meeting design specifications and accessibility standards.
- Integrated Sentry for production error monitoring and structured error boundaries across the app
- Optimized web performance, SEO, and accessibility through iterative testing, improving Core Web Vitals scores.

ONEFLARE TECH SOLUTIONS- NIGERIA

(February 2022 - December 2023)

Frontend Developer

- Built 15+ responsive pages across e-commerce and admin dashboard products as part of a 3-person frontend team, owning delivery from requirements gathering through production deployment.
- Translated Figma designs into pixel-accurate, accessible UI components for a marketplace platform, ensuring consistent cross-device rendering and close collaboration with designers on every screen.
- Maintained code quality across e-commerce checkout and admin dashboard workflows by writing unit and component tests, reducing UI regressions and improving overall application reliability.

TECHNICAL SKILLS

Mobile	React Native, Expo, iOS & Android, Offline-first PWA, Service Workers
Frontend	JavaScript, TypeScript, React, Next.js, Tailwind CSS, React Query
Backend	Node.js, Express.js, Nest.js, Strapi CMS, REST API integration
Database	MongoDB, PostgreSQL, Firebase
DevOps	Git, GitHub, Azure DevOps, CI/CD Pipelines, Docker, Jest
Methods	Agile / Scrum, A/B Testing, Performance Optimization, Code Review

EDUCATION & CERTIFICATION

Yaba College of Technology

(2022 - 2025)

Electrical/Electronics Engineering

Higher National Diploma

Certification: FreeCodeCamp — JavaScript Algorithms and Data Structures
